Get ready for the new football season by claiming a shirt from the following football leagues:

- **England: Premier League, Championship, League One and League Two**
- **Scotland: Premiership, Championship, League One and League Two**

✓ Flexible solution

The GB162 series, also available in 65, 80 and 100kW variants, is an extremely versatile and compact wall hung condensing boiler that can be installed on its own or as part of a multi-boiler 'cascade' system.

✓ High efficiency, low emissions

Provides net efficiencies of up to 110% (NCV) with ultra low class 5 levels of NOx emissions.

✓ Precision engineered heat exchanger

The heat exchanger, which has been developed by Bosch, is constructed from a cast aluminium silicate compound which is lightweight, robust and allows for a rapid transfer of heat.

✓ Ideal solution for nursing, care and residential homes

A two 50kW GB162 cascade system† is an ideal solution for applications with heating demands of up to 50kW, where there are vulnerable residents and a back-up boiler is an essential requirement.

*Terms and conditions apply. †When total net input is above 70kW, such as the cascade example above, commercial ACS qualifications are required for installers.
