# We are Worcester Bosch

## Building Fulfilling Relationships

Worcester Bosch are committed to the design and manufacture of highly efficient heating and hot water technologies for a wide variety of residential and commercial applications.

We are a UK based company which employs around 1,700 people, including a network of 500 field based staff and have manufacturing sites at Worcester and Clay Cross. As part of the Bosch Group, a percentage of the profits made are donated to charities and good causes by the Robert Bosch Foundation, a non-profit charitable trust.

From our established Which? endorsed Greenstar range of gas and oil boilers, to our portfolio of renewable heating and hot water technologies, we have invested heavily in the development of complete system solutions to meet the need for comfort, performance and quality.

Thanks to our experienced field support team, engineering services department and excellent training initiatives, we have a wealth of industry expertise on offer to help improve home efficiency levels in the domestic sector.

Our in-house Heating Design Team also offer fully indemnified system designs and specification support for new build domestic dwellings across our product ranges.

# Gas condensing boilers

New Build market offering from Worcester Bosch, endorsed by Which? for 11 consecutive years.

Strong portfolio of combi or regular boilers and available in a wide range of capacities.

All products are manufactured in natural gas and LPG models.

All boilers provide good SAP performance, and are designed around premium quality with a focus on the lifetime cost of the boiler.

	<b>Combi Boilers - 8000 Life</b>
	<p>Suitable for large DHW requirements                      Wireless compatibility with the Bosch EasyControl                      DHW Pre-heat Kit available                      30, 35, 40, 45 &amp; 50kW models                      Natural Gas &amp; LPG models available</p>
	<b>Combi Boilers - CDi Compact</b>
	<p>Cupboard fit boiler                      Compatible with Greenstar Xtra FGHRs                      DHW Pre-heat Kit available                      28, 32 &amp; 36kW models                      Natural Gas &amp; LPG models available</p>
	<b>Regular Boilers</b>
	<p>Ultra compact, cupboard fit boiler                      Suitable for small to large homes                      9 - 30kW models                      Natural Gas &amp; LPG models available</p>
	<b>System Boilers</b>
	<p>Suitable for small to large homes                      Integral circulation pump and expansion vessel                      9 - 30kW models                      Natural Gas &amp; LPG models available</p>

## Controls & accessories

We offer a wide range of accessories and controls\*, designed to provide optimum comfort and improve system efficiency.

*\*Internal diverter valve kit will be required for installation with System boilers.*

<b>ErP Class V</b>	<b>Comfort I RF (Controller)</b> <i>Single Zone Only</i>
	<p>Enhanced load compensation feature for increased efficiency                      Quick installation, no wiring required                      Reliable radio frequency signal</p>
<b>ErP Class V</b>	<b>Comfort II RF (Controller)</b> <i>Single Zone Only</i>
	<p>Up to 6 adjustable heating temperatures per day                      Set programme at the room thermostat                      Remote access to boiler diagnostic codes</p>

ErP Class VI	<b>Sense II (Control &amp; Weather Sensor)</b> <i>Single Zone Only</i>
	<p>Provides weather compensation via a wired outdoor sensor</p> <p>Displays the amount of energy recovered from a solar system</p> <p>Service reminder function</p>
ErP Class V	<b>Bosch EasyControl (Controller)</b> <i>Single Zone or Multi-zone with eTRV's</i>
	<p>Smart, internet connected programmable control</p> <p>Can be operated using a smart device</p> <p>Available in black and white, the controller has a modern, sleek design, making it a stylish addition to any home</p> <p>Compatible with eTRV's</p>
ErP Class VIII	<b>Bosch eTRV</b>
	<p>Compatible with the EasyControl</p> <p>Bosch Smart TRVs allow precise time &amp; temperature control in each room</p> <p>Recognised in SAP PCDB</p>
ErP Class II	<b>Weather Sensor</b>
	<p>Sensor fitted outside of the property to monitor external temperatures</p> <p>Will adjust the boiler's output dependent upon the outdoor temperature</p> <p>Improve SAP performance</p>
	<b>Greenstar System Filter</b> <p>Internal magnet that can capture large amounts of magnetic debris</p> <p>Increase the comfort and efficiency of your heating system</p> <p>Increase boiler lifespan</p>
	<b>Greenstar Xtra FGHR Unit</b> <i>Combi boilers only</i> <p>Reduce CO2 emissions and gas usage</p> <p>Improve SAP performance</p> <p>Compatible with the CDi Compact combi</p>
	<b>DHW Pre-heat Kit</b> <p>Compatible with CDi Compact and 8000 combi boilers</p> <p>Enables the boiler to fully optimise preheated incoming DHW (up to 60°C)</p> <p>Interaction with other heat sources</p>
