

The Worcester Greenstar Danesmoor System External

Our Greenstar Danesmoor System External boiler boasts the same features as the internal model, whilst freeing up space within your home. The boiler is contained in a robust cabinet that protects the boiler in all weather conditions.

Why install a Greenstar Danesmoor System External?

- Green powder coated cabinet blends in with your garden and protects the boiler from the elements
- Wide range of heating outputs
- Inbuilt frost protection
- Can be used with Greenskies solar panels for energy and cost savings
- Compatible with Greenstore hot water cylinders

Which? Best Buy
Every Greenstar oil boiler has been awarded Which? Best Buy status

5 Year Guarantee
Up to 5 years guarantee on all Worcester oil boilers when fitted with a Greenstar System Filter

The Greenstar Danesmoor External's weather proof case features IP45 ingress protection.

Know your system

System boilers require a cylinder for storing hot water, however the major heating and hot water system components are built into the boiler itself, making it quicker and neater to install.
