Digital 7 day programmer

Accessories

Greenstar System Filter

Install a Greenstar System Filter to protect your heating system from contamination and extend your guarantee up to 5 years*.

Boiler dimensions

The Greenstar Danesmoor Regular will fit neatly under a standard kitchen worktop*.

Know your system

Regular boilers which are sometimes known as traditional, conventional or heat only boilers are ideally suited to homes that already have a traditional heating system. They require a cold water storage tank to feed a hot water cylinder, plus a tank that maintains the water level of the central heating system.
